

## Presidential Message Patrick T. Johnson, D.M.D.

Summer is finally here. As a kid, the beginning of the summer was always my favorite time of year. For those of you old enough to remember, one of Alice Cooper's signature songs back in the 70's was "School's Out", which pretty much summed up how I felt at the time. Ironically, as an adult, I have since realized that school is never out—we get to keep on learning if we so choose. It is also a time when we can celebrate milestone achievements such as graduations and the awarding of degrees and recognitions that directly affect the course of our lives. I am proud to be part of a profession which celebrates knowledge and achievements. I am also fortunate to be a father and witness my own children grow and become successful young adults through their own achievements. This year, summer has been even more special to me. I was recently blessed to witness my middle daughter, Marissa, graduate from her Nurse Practitioner program at the University of Miami. It seems like yesterday when she was just an infant in my arms when I graduated from dental school. One thing I have learned is that time never sits still.

Once again, our summer meeting is rapidly approaching and I hope everyone is making plans to attend. This year's meeting will be held at the Loews Portofino Bay Hotel at Universal Orlando® on August 10th and 11th. It is a great time to catch-up with old friends, while fulfilling our continuing education requirements.

On Friday afternoon, Dr. Daniel Becker will present his lecture on Procedural Sedation in the Dental Practice; satisfying four hours of the CE requirements for conscious sedation permit holders. On Saturday, our keynote speaker will be Dr. Barry Levin, who will speak on Achieving Predictable Stability with Esthetic Dental Implant Therapy. He will elaborate on techniques for periodontists to enhance outcomes and build their implant practices. His presentation will include some of the newer applications of digital technologies that can help to minimize the invasiveness of previously applied surgical procedures. This will hopefully help stimulate ways for us to distinguish ourselves, not only as implant surgeons, but also as periodontists.

This time of year also brings with it the AAP elections. Please familiarize yourself with the candidates and don't forget to vote. The voting will end on the last day of June. We have some great candidates,

*(continued on page 5)*

# 2018 Summer Meeting

RESERVE YOUR ROOM SOON – ROOM BLOCK EXPIRES JULY 19TH!

August 10-11, 2018

Loews Portofino Bay Hotel at Universal Orlando®

## Important Dates

- June 21-24, 2018 Southern Academy of Periodontology Annual Meeting – Amelia Island
- Aug. 10-11, 2018 FAP Summer Meeting  
Orlando – Loews Portofino Bay Hotel  
Dr. Barry Levin/Dr. Daniel Becker**
- August 24, 2018 Board of Dentistry Meeting  
Crown Plaza Tampa Westshore
- Oct. 27-30, 2018 AAP Annual Meeting  
Vancouver, BC Canada
- Nov. 16, 2018 Board of Dentistry Meeting  
Orlando Marriott Lake Mary
- February 8-9, 2019 FAP Winter Meeting  
Marriott Tampa Airport**
- March 22-23, 2019 FLA MOM  
Edgewater High School, Orlando

## Perio Program Updates

Congratulations to **Patricia Barros**, University of Florida, and **Alyssa Cabanas**, Nova Southeastern University, recipients of the 2018 Florida Association of Periodontists Outstanding Dental Student Award.

(L-R) Dr. **Theodora Kompotiati**, UF, Department of Periodontology, Clinical Assistant Professor & Predoctoral Director, and **Patricia Barros**.

(L-R) **Dr. Saulius Drukteinis**, NSU Department of Periodontology, Pre Doc Director, **Alyssa Cabanas**, and **Dr. Maria Hernandez**, Chair, NSU Department of Periodontology.

### Trustee Report

Your Florida District 3 Trustees were present at the May Board meeting held in Chicago. You should have all received the district email that reviewed the topics covered at this meeting. June finds the AAP elections in action and I hope each of you will vote. It is important for all of us to participate in the process. Upcoming in the later part of June will be the release of the proceeding from the World Workshop on the Classification of Periodontal and Peri-Implant Diseases and Conditions. This workshop that was held in November of last year and will be the foundation for Periodontics for the future. Information from the AAP will be sent to members once the report is released.

Please register for the AAP Annual meeting being held this year in Vancouver, October 27-30, 2018.

Should you have any questions or concerns, please reach out to your Florida representatives, John Russo or myself.

Sincerely,

Bob Churney  
[drc@churneyperio.com](mailto:drc@churneyperio.com)

# Florida Board of Dentistry Report

*Submitted by Dr. Walt Colon*

The Florida Board of Dentistry (BOD) met in Tallahassee on Friday, May 18, 2018. All board members were present. This was the first meeting for BOD members Dr. Matt Freedman and Dr. Nick White.

The Florida Dental Association's petition for variance for its Online Radiography Course was postponed until the August meeting so that the FDA can provide more information on the clinical guidelines for the dentist who will be doing the hands-on training.

The BOD heard a presentation on dental therapy from Dr. Frank Catalanotto. He did not go through his presentation (slides) and just stated he was there for information and to answer any questions. There were no questions from the BOD.

Dr. Mike Eggnatz, president of the Florida Dental Association, gave a well-received presentation on Florida's Action for Dental Health.

The BOD discussed HB 21 (opioid legislation) and its implications for dentistry and the BOD moving forward. The Florida Medical Association, the Florida Academy of Family Physicians, the Florida College of Emergency Physicians, and the Florida Osteopathic Medical Association are approved as providers of the mandatory CE course. The BOD approved rule language requiring all licensees registered with a DEA to prescribe opioids to take a two-hour CE course on opioids by January 31, 2019 and at each subsequent biennium as required by HB 21. The 2 hours will be included in the 30 hours (and not in addition too). Teaching permit holders will have to take the 2-hour CE on opioids as well.

The BOD will be doing a complete rewrite of Rule 64B5-17.0045, Standards for the Use of Controlled Substances for Treatment of Pain. The Department of Health would like as much consistency in the guidelines across the various provider

groups as possible. Mr. Flynn, BOD Counsel, asked the BOD to start thinking about the disciplinary guidelines and the various implications of HB 21. The BOD will make decisions on the guidelines in August.

The BOD discussed its Citation Authority for failing to check and report data into the Prescription Drug Monitoring Database (PDMP). The BOD approved a \$250.00 fine for failing to report controlled substance information to the PDMP and a \$100.00 fine for failure to consult the PDMP prior to dispensing a controlled substance. There was much discussion on how the Department would monitor these violations. It was stated that they will not be auditing the PDMP and that violations would most likely be discovered as part of a larger investigation on another issue.

The BOD approved a motion to revise the various dental licensing applications to add a question asking if the applicant is registered with the DEA.

BOD member, Angie Sissine, R.D.H., gave the status of the digital scanning and restorative function dental auxiliary (RFDA) proposals. The digital scanning proposal will be reviewed by the Hygiene Council on its June 18th call and then move to the full Board for action at the August meeting. The RFDA proposal will be discussed during a face-to-face meeting before the August meeting and then move to Hygiene Council for its review so that it can be voted on at the November meeting.

The next BOD meeting is scheduled for **Friday, August 24, 2018**, at Crown Plaza Tampa Westshore, 5303 West Kennedy Boulevard, Tampa, Florida, 33609.

---

FAP

## AAP ELECTIONS - Have You Voted?

Online balloting for AAP elections (officers/trustees) started on June 1, and by now, all AAP voting members should have received written ballots. Please take the time to participate in the AAP election this year using either method to vote. The Florida Association of Periodontists maintains an open line of communication with our AAP leaders because they know our members vote.

# 2018 Summer Meeting

Loews Portofino Bay Hotel at Universal Orlando®

## Friday, August 10, 2018

Dr. Daniel Becker

*Procedural Sedation in Dental Practice –  
Essential Principles Revisited*

1:00 p.m. – 5:00 p.m.

4 CEUs

*This course will meet the biennium requirements  
for a conscious sedation permit.*

**Description:** This presentation will highlight essential scientific principles for the safe and effective use of moderate sedation in clinical practice. Emphasis is placed on drug regimens having proven safety and efficacy in controlling procedural apprehension. Principles of appropriate patient monitoring along with the recognition and management of sedation-related complications will also be addressed.

### Topics:

- Sedation in Perspective
- Pharmacological considerations
- Patient Monitoring
- Complications

### Objectives:

1. Characterize minimal, moderate and deep sedation, and distinguish these from general anesthesia.
2. Describe the appropriate use of various drug classes useful for providing sedation, including differences in single drug versus multiple drug regimens.
3. Describe appropriate monitoring of perfusion, ventilation and oxygenation
4. Describe recognition and management of related complications.

## Saturday, August 11, 2018

Dr. Barry Levin

*Achieving Predictable Stability with Esthetic  
Dental Implant Therapy. Techniques for  
Periodontists to Enhance Outcomes and Build  
their Implant Practices.*

9:00 a.m. – 4:00 p.m.

5 CEUs

Dental implant therapy has been a major component of periodontal practices for over 2 decades. The unique post-graduate training in surgery, regeneration and knowledge of wound healing makes the periodontist best-suited for this discipline. Understanding of physiologic changes that occur after teeth are extracted has changed the way treatment is performed. Combining minimally-invasive techniques with regenerative therapy can counter much of the negative dimensional changes that can lead to esthetic failures.

The use of allogeneic and xenograft biomaterials can negate the need for secondary donor sites and reduce morbidity. This can also result in esthetically-pleasing results that can be maintained for years. Techniques such as the Dermal Apron Technique (DAT) and the Subperiosteal Tunneling Technique (SPTT) eliminate the need to harvest autogenous soft tissue grafts and are proven to augment the hard and soft tissues, which remain stable years after therapy. They also increase the thickness of the supracrestal soft tissues, stabilizing bone levels and masking the shadows caused by abutments and frameworks. Clinical studies validating this techniques, as well as their indications and limitations, will be discussed, with an emphasis on private practice, where these procedures are performed regularly.

The technique of creating screw-retained, provisional restorations, for the periodontist will also be presented. This can enhance case acceptance and grow the referral base for periodontists who perform this step. Methodology and use of appropriate materials will be presented.

### Outline:

1. Discuss the physiologic changes that occur following extractions.
2. Present the rationale for augmentation around immediate and delayed implants.
3. Demonstrate two novel techniques, best-suited for periodontists to perform, to enhance lasting, esthetic and healthy outcomes.
4. Present the technique of fabrication screw-retained, provisional restorations in the periodontal office.

## Loews Portofino Bay Hotel at Universal Orlando®

***Reserve Your Room Today!***

- ✓ Room rate: \$199.00 per night.
- ✓ No resort fee. Complimentary overnight self-parking for registered attendees.
- ✓ Discounted parking \$12.00 per day for those driving in.
- ✓ **Room block expires July 19, 2018.**
- ✓ Call 866-360-7395 – Mention the Florida Association of Periodontists. Go to [www.floridaperio.org](http://www.floridaperio.org) for online reservations.

***Limited rooms at this rate.***

## FAP Members Reap Recognition

Congratulations are in store for three FAP Members. **Dr. Jessica Stilley**, FAP Secretary-Treasurer, has reached #1 on the Amazon.com Bestsellers List with her book “The Million Dollar Smile: Changing Lives with Cosmetic Dentistry.” The book gives patients real world, practical information to help them in obtaining the best possible restorative and cosmetic dental work.

**Dr. James Antoon**, FAP Past President, will be receiving the J. Leon Schwartz Lifetime Service Award at the Florida Dental Convention. Dr. Antoon will also be honored as an outgoing trustee after serving for 15 years as both an alternate trustee and trustee.

FAP Member **Dr. Irene Marron-Tarrazzi** will be receiving the Florida Dental Association’s Dentist of the Year Award and is featured in the May/June 2018 Today’s FDA.

FAP

## Presidential Message (cont’d)

whom many of you may know, and their leadership will definitely help to influence the direction of the Academy, so please do your part and vote. It is important to note that the opportunity to vote on the pending bylaws change concerning the mandate for our members to be members of the ADA as well has been temporarily postponed; however, when the measure does come up for a vote, please remember to consider the full impact of the change, should it occur, if we are no longer required to be members of the ADA. As a body, the FAP opposes the measure and I would like to remind everyone how important it is to support organized dentistry and to have a voice at the table and maintain that united stance as an Academy.

Everyone, please enjoy the rest of your summer. Remember, school’s never out, hope to see you in Orlando.

I am looking forward to seeing you all there! Thank you.

Patrick T. Johnson, D.M.D.
